BIO

For well over a decade, vioLit has lived and breathed Hardstyle music. It was only about four years ago that she stepped behind the decks for the first time to begin livestreaming her DJing journey on Twitch.tv, which has now turned into her full-time job.

Completely self taught, vioLit picked up the craft quickly due to her extensive background in music which includes singing, guitar, and dance training as a young child. Often streaming marathon-length sets for many hours on end, she has taken the Twitch scene by storm to become one of the top DJs on the platform with over 39,000 global followers. A self-proclaimed one-woman show, she controls the lighting and visuals while engaging her audience with live vocals, dancing, and flow arts - all while mixing up the hottest tunes and never missing a beat!

Don't be fooled by her sweet demeanor; vioLit brings the heat with a diverse collection of all things hard, from Classic and Euphoric Hardstyle to Uptempo, Frenchcore and more. She approaches her sets with the motto of "bangers only" and will delight your ears with forgotten gems of the past along with fresh new tunes, including many of her own live mashups and vocal edits. In addition, she has written lyrics and performed vocals for a variety of tracks ranging from Trance and Techno to Hardstyle, Happy Hardcore and Uptempo.

Although she mostly performs her DJ sets on Twitch, vioLit has played a number of local gigs and has her eyes set on breaking into the festival scene. Recently being crowned runner up in the Dropzone X Dirty Workz DJ contest after competing against 37 established Hardstyle DJs, she has proven she can hang with the big dogs. With her infectious energy and banging track selection, vioLit is sure to get the crowd moving whether it's on Twitch or a dancefloor near you!
